

## Smartphone: Control Central

### Enhanced with the INSTEON Hub II Automation to the masses.

Together with a household of INSTEON devices, the INSTEON Hub II makes it easy to configure lighting scenes, set schedules and add in sensors. It allows you to receive text message alerts for doors and windows, motion, water leaks and smoke. And you can remotely monitor and control it all from a smartphone or tablet from anywhere in the world.  
Item #2245-222 **\$39.99**

## Familiar Remote Control

### Smartphone simple.

Your home doesn't come with an owner's manual and neither should your automation system. The INSTEON Hub has been designed to be easy-to-use for anyone, no matter what your technical background.

### One-stop-shop.

With INSTEON, your smartphone becomes the interface into your home control world. Everything you need to do from adding devices on day one to turning off the lights at the end of the night is configured in the palm of your hand.

### Always Improving.

Because the software that runs your home lives on your smartphone, you will never be cut out from new features and improvements. Enhancements are just an app update away.

### Dual-Band

Unlike other home control systems, INSTEON is the only one that uses both powerlines and radio waves for the best reliability.

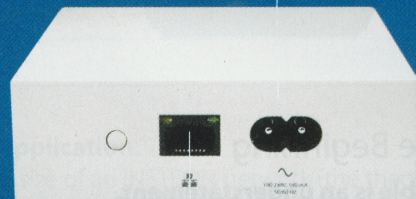

### Smartphone Control

Do everything from your smartphone or tablet: add devices, set schedules, configure scenes and more.

### Power

Simultaneously connecting your Hub to your powerline network and using a mere 1 Watt

### Ethernet

Connect to your router and provide anywhere-in-the-world access.
